Invalid gratuity may be sanctioned on retirement from the service, to a servant who by bodily or mental infirmity is permanently incapacitated for further service.

(2) Subject to the provisions of rules 2 to 5 and 11 compensation or invalid gratuity may be paid to servants in the inferior service at the following rates:—

After a service of less than five years, Nil.

After a service of not less than 25 years but less than 30 years, 9 months' pay.
After a service of not less than 30 years or more, 12 months' pay.

Gratuity under this rule shall be calculated on the pay drawn at the time of retirement.

10. Gratuity under these rules shall be granted by the municipal council. The rates laid down in rules 7, 8 and 9 shall be regarded as maxima and shall not be sanctioned unless the service rendered was satisfactory. In any case where the service was not thoroughly satisfactory the municipal council shall make such reduction in the amount payable as it thinks proper.

11. In calculating the gratuity admissible to a servant in inferior service only service after the age of 18 years shall be taken into account.

12. A servant, part of whose service has been inferior and part superior, may either count—

(a) the whole as *inferior* towards gratuity on the *inferior* scale, or

(b) the *superior* part towards gratuity on the *superior scale* and the *inferior* part towards gratuity on the inferior scale.

Under clause (a) the gratuity shall be calculated on the pay (whether in superior or inferior service) which the servant drew immediately before his retirement or immediately before admission to the Provident fund, as the case may be.

Under clause (b) the gratuity on each scale shall be calculated on the pay which the servant drew at the time of transfer from inferior to superior service or from superior to inferior service and upon retirement or immediately before admission to the Provident fund respectively. If a servant is reduced from superior service to inferior service for misconduct, no gratuity shall be paid to him under this rule, except with the special sanction of the Government.

Explanation.—The gratuity for inferior service together with the gratuity for superior service shall not exceed the amount of gratuity that would be admissible, if the whole service were treated as superior service.

13. Where a servant dies in service, his family may, if the municipal council is satisfied that it is in needy circumstances, be paid—

(a) if he was in inferior service, the gratuity to which he would have been eligible on the date of his death, if he had been incapacitated or discharged on account of reduction of staff, and

(b) if he was in superior service, the gratuity to which he would have been eligible on the date of his death, if he had been discharged from service on account of the abolition of his appointment or on account of reduction of staff

Explanation.—For the purposes of this rule, 'family' includes the servant's wife, his legitimate children which expression shall include an adopted son, step-children residing with and wholly dependent on him and also his parents, sisters and minor brothers if wholly dependent on and residing with him. If the servant has no family as defined above and if he is a subscriber to the Provident fund, the gratuity, if any, payable to him may be paid to the nominee who receives the Provident fund amount provided that the council is satisfied that such nominee is in needy circumstances.

14. If a servant has rendered service under different local bodies, the service under the different local bodies shall be combined and treated as a whole for the calculation of gratuity admissible under these rules. The liability for the payment of gratuity shall be apportioned between the different local bodies in the proportion in which the aggregate pay drawn by the servant during the whole of his qualifying service has been paid by them. If, on such apportionment, it is found that more than three-fourths of the amount of gratuity is payable by one local body, that local body shall bear the whole charge and no apportionment shall be made.

Explanation.—This rule shall not apply to cases of resignation from one local body to take up employment under another local body.

15. (1) (a) A servant who is eligible for a gratuity under these rules shall submit an application for the payment thereof to the head of his office

(b) Every application for an invalid gratuity shall be accompanied either by a certificate of a Medical Officer or the head of the office to the effect that the applicant is incapacitated for further service.

(2) If the executive authority of the municipal council proposes to grant the gratuity applied for, he shall draw up an application for gratuity in the form annexed to these rules.

TENDER FOR FORMING A NEW TANK IN GUNDAMADAKALA VILLAGE, UDAYAGIRI TALUK.

TENDERS will be received by the Executive Engineer, Nellore Division, at his office at Nellore, up to 4 p.m. on 25th May 1937 for the work of "Forming a new tank in Gundamadakala village, Udayagiri taluk."

The tender should be in the prescribed form obtainable from the Executive Engineer's office. The tenders will be opened by the Executive Engineer at his office at Nellore at 3 p.m. on 29th May 1937.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Nellore Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rs 1 000 (rupees one thousand only) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Nellore Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 750 (rupees seven hundred and fifty only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 6 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Nellore Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., where from certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate, pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;

(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and on delivery;
(6) accidents;
(7) delays, and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Nellore Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of schedule. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
Three months	15 per cent.
Six months	35 "
Nine months	60 "
Twelve months	75 "
Fifteen months	90 "
Eighteen months, etc. ..	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualification of the supervising staff employed by the contractor on the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling or pumping water. The cost of all works necessary for any excavating and protecting foundations and other incidental work found necessary during execution must be included in the unit rate.

7. Every tenderer is expected, before quoting his rates to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the Standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) earnings;
(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays; and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Godavari Eastern Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections where unavoidable, should be made by crossing out, initialling dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the materials at these prices, and shall quote their rates for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount).
Three months	30 per cent.
Six months	60 "
Eight months	100 "

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees twenty five only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new lump-sum contract form for the due fulfilment of the contract. The security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be returned as security for the due fulfilment of this contract. 5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and also the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume as token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Guntur Division.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of schedule. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. 16. No payment will be separately made for baling water from foundation and forming protective bunds clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the above-mentioned charges.

17. The tenderer may however mention an earlier date which fact will be taken into consideration and the earlier date will thereafter be considered as the date fixed for completion of the work.

18. The qualification of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph, shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Guntur Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary specification" Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, hills, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications or in this tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) clearing up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars of payment; and
(9) responsibilities and liabilities of contractor.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule and that this schedule is liable to alterations by omissions, additions or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract.

The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of schedule "A". This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or to due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on total net lump-sum amount).
	PER CENT.
Three months	30
Six months	60
Nine months	100

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16 No payment will be separately made for baling water from foundation and forming protective bunds, clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the abovementioned charges.

17. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

18 The qualification of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and, if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

19. Seigniorage will not be levied for materials taken from Government quarries or streams.

20. No berm rent will be charged on materials stacked on Public Works Department canal berms during the course of conveyance.

DELHI,
The 13th February 1937.

The following Bill was introduced in the Council of State on the 7th April 1937—

C. OF S. BILL No 2 OF 1937.

A Bill to control the Coastal Traffic of India.

4. No person being the owner of a ship or sailing vessel of any description shall be entitled to carry on business in coastal traffic in British India unless he obtained a licence for the purpose from the Governor General in Council.

5. Any person carrying on business in coastal traffic in British India without obtaining a licence as herein provided shall be liable to be punished on summary conviction by a Magistrate with First Class powers appointed for the purpose by the Governor General in Council with a fine not exceeding Rs. 10,000 and may at the option of the Governor-General in Council be debarred from bringing in any ship or sailing vessel into any port in British India for such terms and on such conditions as the Governor General in Council may direct, in which latter event the Governor General in Council shall allow such person an opportunity of making his submissions, if any, and shall mention the grounds on which such order is based. Penalty for carrying on business without licence.

6. No owner of a ship or sailing vessel shall charge as freight and fare for the carriage of goods and passengers respectively, from any port in British India to any other ports in British India or the continent of India or *vice versa* a sum below the minimum sum prescribed for the purpose by the Governor General in Council, nor shall he or they charge any sum in excess of the maximum prescribed for the purpose by the Governor General in Council. Minima and maxima freight and fare.

7. No owner of a ship or a sailing vessel engaged in carrying on the business of coastal traffic in British India shall, directly or indirectly, pay any rebate or commission to any person whose goods may be carried by such owner in his ship or sailing vessel to or from any port in British India, provided, however, that nothing herein contained shall prevent such owner from paying the customary brokerage or commission to any broker who procures freight for him. Grant of rebates or concessions.

8. Any owner of a ship or a sailing vessel committing a breach of the provisions of clauses 6 and 7 hereof shall be liable to have his licence cancelled altogether or suspended for a period considered necessary by a notification to be published by the Governor General in Council in the Official Gazette, provided that the notification shall mention the grounds on which such licence is being cancelled or suspended. No licence shall be either cancelled or suspended without first giving to such owner an opportunity of making his submissions, if any, to the Governor General in Council. Penalties for breach of clauses 6 and 7.

9. The Governor General in Council may, by notification in the Official Gazette, from time to time prescribe (a) the terms and conditions upon which a licence to carry on business in coastal traffic shall be granted, (b) the minimum and the maximum rate which may be charged for carriage of goods or passengers from any port in British India to any other port in British India or Burma or Ceylon or *vice versa*. Appeal.

STATEMENT OF OBJECTS AND REASONS.

This Bill was originally introduced by me in the last Council and was circulated for eliciting opinions thereon. It however fell through with the dissolution of the Council.

It has since been redrafted with a view to meet certain criticisms to which the Bill as originally drafted had been subjected both as regards certain of its provisions as well as matters of which no cognizance had been taken.

The object of this Bill continues the same as before. It is intended to remove a possible impediment to the growth and development of the Indian Mercantile Marine. There is no question of any discrimination between British and Indian shipping. Past experience, however, shows

that a well established powerful company engaged in coastal traffic can easily put a new venture out of action by unfair competition, e.g., rate-cutting, grant of rebates, etc. The fear of unfair competition deters Indian capital being invested in coastal shipping. If the Governor General in Council be given power to prevent such competition, the fear will be largely allayed and a new line of commercial activity may be opened out to Indians.

By this Bill it is provided that only persons holding licences from the Governor-General in Council will be entitled to carry on business in coastal traffic in India. Power is also given to the Governor-General in Council to fix the maximum and the minimum rates of freight and fares and also to prevent the grant of rebates or other concessions which are calculated to reduce such minimum rates. The carrying on of business in coastal traffic without a licence is made penal as also the contravention of any rule prescribed by the Governor-General in Council with regard to the grant of rebates or other concessions.

NEW DELHI,
The 4th March 1937.

G. H. SPENCE,
Secretary to the Government of India.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 12th March, 1937:

L.A. BILL No. 17 OF 1937.

A Bill to reconstitute the Committee constituted under the Indian Soft Coke Cess Act, 1929.

WHEREAS it is expedient to reconstitute the Committee constituted under the Indian Soft Coke Cess Act, 1929, It is hereby VIII of 1929.
enacted as follows:—

Short title, commencement and duration.

1. (1) This Act may be called the Indian Soft Coke Cess (Reconstitution of Committee) Act, 1937.

(2) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India* appoint in this behalf, and shall remain in force as long only as sections 2 to 7 of the Indian Soft Coke Cess Act, 1929, remain VIII of 1929.
in force.

Reconstitution of the Indian Soft Coke Cess Committee.

2. On the commencement of this Act, the Committee constituted under sub-section (1) of section 4 of the Indian Soft Coke VIII of 1929.
Cess Act, 1929, shall stand dissolved, and shall be reconstituted in the manner provided in section 4 of the said Act as amended by section 4 of this Act.

Vesting of moneys in the reconstituted Committee.

3. All the moneys held by the dissolved Committee shall vest in the Committee as reconstituted under section 2.

Amendment of Act VIII of 1929.

4. In the Indian Soft Coke Cess Act, 1929,— VIII of 1929.

(a) in the long title and in the preamble, the word "and," where it occurs for the first time, shall be omitted;

(b) in sub-section (1) of section 3, the word "and," where it occurs for the second time, shall be omitted; and

(c) in sub-section (1) of section 4,—

(i) in clause (iii), the words "and Orissa" shall be omitted;

(ii) in clause (iv), for the word "seven" the word "three" shall be substituted, and the word "and" shall be omitted;

(iii) for clause (c) the following clause shall be substituted, namely:—

"(c) two persons nominated by the Indian Mining Association, and "; and

(iv) after clause (c) the following clause shall be inserted, namely:—

"(cc) three persons nominated by the Indian Colliery Owners' Association."

STATEMENT OF OBJECTS AND REASONS.

The present representation of non-official bodies on the Soft Coke Cess Committee, constituted under section 4 (1) of the Indian Soft Coke Cess Act, 1923, consists of seven persons nominated by the Indian Mining Federation and one person nominated by the Indian Mining Association. This allocation of seats was originally adopted because practically all the proprietors of collieries which produce soft coke were then members of the Indian Mining Federation. The position has, however, since been altered owing to the interest which other bodies engaged in this industry have acquired in the manufacture of soft coke, and the Indian Colliery Owners' Association have for this reason been pressing for some time for separate representation on the Committee on the basis of the output of soft coke by their members. An examination on this basis of the relative importance of the various interested bodies shows that the claim of this Association is justified and that a readjustment of the representation of non-official bodies on the Committee is necessary in the manner proposed in the Bill.

It is further proposed to amend the Act so as to provide that the nomination hitherto made by the Government of Bihar and Orissa will in future be made by the Government of Bihar in whose territory the coalfields are mainly situated. The Bill is also intended to give effect to this proposal, and to certain formal changes in the long title and preamble and in section 3 (1) of the Act rendered necessary by the constitution of Orissa as a separate Province.

NEW DELHI;
The 8th March 1937.

ZAFRULLAH KHAN.

The following Bill was introduced in the Legislative Assembly on the 15th March 1937 —

L.A. BILL No 18 OF 1937.

A Bill further to amend the Indian Oaths Act, 1873, for a certain purpose.

X of 1873. WHEREAS it is expedient further to amend the Indian Oaths Act, 1873, for the purpose hereinafter appearing; It is hereby enacted as follows.—

Short title. 1. This Act may be called the Indian Oaths (Amendment) Act, 1937.

X of 1873. Amendment of section 5, Act X of 1873. 2. In section 5 of the Indian Oaths Act, 1873, after the word "jurors" the following proviso shall be inserted, namely —

"Provided that where the witness is a child under twelve years of age, and the Court or person having authority to examine such witness is of opinion that he does not understand the nature of an oath or affirmation, the foregoing provisions of this section and the provisions of section 6 shall not apply to such witness, but in any such case the absence of an oath or affirmation shall not render inadmissible any evidence given by such witness nor affect the obligation of the witness to state the truth."

STATEMENT OF OBJECTS AND REASONS.

Sections 5 and 6 of the Indian Oaths Act, 1873, make it obligatory upon all persons who may be lawfully examined or may give evidence to make an oath or affirmation, and section 118 of the Indian Evidence Act, 1872, makes only such persons competent to testify who are not prevented from understanding questions put to them and from giving rational answers to those questions by reason of tender years, etc. The combined effect of these provisions is that, unless in the opinion of the Court the tender years of a child appearing as a witness prevent him from understanding the questions put to him and from giving rational answers, he is a competent witness and must be sworn. The English law—section 38 of the Children and Young Persons Act, 1933—provides for the contingency, not recognized by the Indian law, of a child being possessed of sufficient intelligence to justify the reception of his evidence, and understanding the duty of speaking the truth but not understanding the nature of an oath. The principle of the English law is considered more sound. The Bill proposes to bring the Indian law in its application to both civil and criminal proceedings into conformity with the English law by inserting a proviso to section 5 of the Indian Oaths Act.

41 Certificate concerning the loss of country craft issued by the appropriate authority under Department of Commerce Mercantile Marine Department Circular No. 3 of 1933,

42 Protest noting and certifying the dishonour of a bill of exchange and protest by a master of a ship relating to circumstances calculated to affect the liability of the ship-owner made before a Notary Public or other duly authorized official

43. Declaration made under the provisions of the Statutory Declarations Act, 1835 (5 and 6 Will. 4 c. 62).

STATEMENT OF OBJECTS AND REASONS.

Certain commercial documents of various kinds are by the practice of merchants accepted as evidence and taken as prima *facie* correct, but in a Court of law they cannot, in the absence of consent by the parties, be admitted in evidence without testimony as to their genuineness or the correctness of the statements made therein. Such documents are not admissible in evidence under section 32 or any other provision of the Indian Evidence Act, 1872, without further proof. The result is that a party desirous of delaying the proceedings can often insist on the other side getting Commissions issued to take evidence as to facts which are for all practical purposes sufficiently established by the documents in question. It is proposed to undertake legislation on the lines of the Bankers Books Evidence Act 1891, so as to provide that commercial documents which are accepted as prima *facie* correct in commercial circles may be admitted in evidence without formal proof. A list of such documents has been prepared in consultation with Commercial Associations and Local Governments, and is included in the Schedule to the Bill, power being reserved to the Government of India to add to the list from time to time and to remove items from it.

NEW DELHI,

The following Bill was introduced in the Legislative Assembly on the 30th March 1937:—

L.A. BILL No. 20 OF 1937.

A Bill to amend the Payment of Wages Act, 1936, for a certain purpose.

IV of 1936. WHEREAS it is expedient to amend the Payment of Wages Act, 1936, for the purpose hereinafter appearing, It is hereby enacted as follows:—

Short title. 1. This Act may be called the Payment of Wages (Amendment) Act, 1937.

Amendment of section 2, Act IV of 1936. I—IV, 1936. 2. To section 2 of the Payment of Wages Act, 1936, the following *Explanation* shall be added, namely —

"*Explanation.*—For the purposes of this section, an employed person shall be deemed to be absent from the place where he is required to work if, although present in such place, he refuses to carry out his work."

STATEMENT OF OBJECTS AND REASONS.

Section 2 of the Payment of Wages Act although relieving the employer for payments to workmen who are not present for work appears to render him liable to pay wages to persons who though present decline to work. The Bill is intended to remedy this defect.

NEW DELHI,
The 25th March 1937.

F. NOYCE.

The following Bill* was introduced in the Legislative Assembly on the 30th March 1937:—

It is hereby declared that it is expedient in the public interest that the provisions of clause 2 of this Bill shall have immediate effect under the Provisional Collection of Taxes Act, 1931. XVI of 1931.

STATEMENT OF OBJECTS AND REASONS

Since the passing of the Indian Tariff (Amendment) Act, 1930, the Government of India have maintained a careful watch on the position of rice in the Indian market and they are satisfied that in the interests of the Indian rice grower the existing protective duty of twelve annas per maund on broken rice should be continued for another year.
